

Freedom To Succeed - Christian

Why Choose Abstinence: It's the Law.

The Freedom to Succeed program is geared to motivate teens to choose sexual abstinence as the best lifestyle to help them reach their dreams and goals. Students can see the programs in any order. It is not necessary to see any other program first. The following outline requires at least 60 minutes.

Program Outline (Grades 7 – 12)

Discussion – Pregnancy and Child Support

Students will be challenged to consider the devastating consequence of an unplanned teenage pregnancy, single parenting, and having to pay child support. Who pays? How much? How long!? Abstinence = Freedom.

Discussion - Criminal Law

Students will get a straight answer to the question “What exactly do you mean by sex?” Do you mean sexual intercourse? Is oral sex or other sexual behaviors considered sex? The students will be surprised to hear that the law considers touching sexual areas to be sex. Each sexual crime (as defined in your state) is explained. These crimes include a discussion concerning public lewdness, indecent exposure, statutory rape, sexual assault, and aggravated sexual assault.

Game - Guess the Age

Students play a game demonstrating how difficult it is to determine with certainty the age of a teenager and the devastating legal consequences of guessing wrong and having sex with someone underage.

Discussion - Sexual Offender Registration

Students learn about having to register as a sex offender, who, what, how long, etc. Examples of actual teen sex offender registrations are shown.

Discussion – Teen Dating Violence

Students learn to look for red flags in their relationships to help them know if they are in an unhealthy relationship.

Discussion – Pornography: Cell phones/Sexting/Internet (with tennis ball game object lesson)

Students will learn how pornography can be unlawful. This section explains laws regarding internet pornography. Pornography is also dangerous and makes them more likely to commit sexual crimes than teenagers who do not use pornography. Pornography also distorts sex through focus on the self and robs you of the best, healthy sexual relationship in marriage.

Discussion - Sexual Harassment

Students will be better equipped to recognize sexual harassment and be taught what to do if they are a victim.

Game - Concentration Memory Game

The law expects you to remember 100% of its details. Abstinence means you don't have to worry if you remember all the legal details. It guarantees freedom.

Example From Scripture

A look at what God's law says about sex. 2 Samuel chapters 11-12 are the story of David and Bathsheba. Students learn that even though God forgives there are still consequences for sin.

Concluding Discussion – The Best Protection

The information from the program will be applied to the teenager's life when it comes to “the best protection.” The pill, condoms, oral sex, and just sexual touching won't protect you from legal consequences. Only Abstinence gives you full protection from all of the consequences. Abstinence = Freedom.

Survey

Each student participates in a voluntary survey. The results are compiled and sent back to your organization.
